The Regional Rusumo Falls Hydro Electric Project (RRFHP) is a project of the Nile Basin Initiative implemented by the Nile Equatorial Lakes Subsidiary Action Program Coordination Unit (NELSAP-CU) on behalf of the **Rusumo Power Company Limited (RPCL)** meant to benefit three neighboring countries to name Burundi, Rwanda and Tanzania. RRFHP is expected to produce about 80 MW on the Kagera River at the Rusumo Falls located on the border between Rwanda and Tanzania under a Run of River (ROR) scheme.

RPCL which was formed in 2013 and registered in Rwanda and Tanzania where the project facilities are located, is implementing the project through a public financed, privately managed mechanism. Upon completion and commissioning, RPCL will operate and maintain the power plant and its associated facilities using its own staff or hire services of a Private Operations and Management Contractor.

The **RPCL** through **NELSAP** has received financing from the IDA the World Bank towards the cost of Rusumo Project and intends to apply part of the proceeds toward payments under the contract for the **Execution of Works for the Construction of Fourteen (14) Families With Houses to be Reconstructed at their own Plots, Cowshed and Early Children Development (ECD), Model Village to Resides Sixty-Six (66) Families, Rain Water Harvesting, Garbage Collection, Main Access Road and Internal Roads in the Village, at Kiyanzi Site, Kirehe District of Eastern Province of Rwanda.**
